STATE OF COLORADO,
SECRETARY'S OFFICE,
DENVER, December 10, 1888.

To his Excellency,
ALVA ADAMS,
Governor of Colorado:

DEAR SIR:

In compliance with the custom, it is my duty to report to Your Excellency the business transactions of the office of Secretary of State, for the two fiscal years, beginning with December 1, 1886, and ending November 30, 1888.

I, with pleasure, tender to Your Excellency my warmest thanks, for the courtesy extended to this department by yourself and your Secretary.

In this connection, I also take occasion to thank all the heads and their assistants of the various departments of the State government, for the uniform respect shown me while in this office.

It should be a source of satisfaction to note the increase of business through this office; it is an indication of the growth and prosperity of the business of this State.

The revenues of the State from this office have been for the last two fiscal years nearly three (3) times as much as for any two previous years in the history of Colorado. The receipts derived from this office, commencing with the admission of the State up to the time I came into the office, amounted to $52,259.60. During my term of office the revenue for the two years, ending November 30, 1888, has amounted to $70,652.12. The

amount is sufficient to pay the salaries of Secretary of State, his Deputy, and the salaries of the Governor and his Secretary, Treasurer of State and his Deputy, Auditor of State and his Deputy, Attorney General, School Superintendent, and their Clerks; in short, it pays the full salaries of the Executive Department and their Deputies for the two years.

Questions have arisen as to the amount of fees collected on filings and the application of the law in certain cases.

I have ruled, as far as possible, so as to carry out what I considered the intent of the law. For instance, where corporate companies have previously paid a filing fee, and later on consolidated with other companies, under new titles, we have given them credit for fees previously paid.

We have had a good number of those cases, and have considered it an equitable way of dealing, and one that justice demands.

Another question in the minds of some has arisen, as to the amount authorized by law to be collected for filing articles of incorporation. A good many papers have been filed under protest, and two or three cases are now in the courts.

I have the honor to be

Your obedient servant,

JAMES RICE,

Secretary of State.

CASH ACCOUNT.

FOR THE TWO YEARS ENDING NOVEMBER 30, 1888.
